Summary

Junior Full-Stack Developer with hands-on experience building responsive and maintainable web applications using React, Next.js, TypeScript, JavaScript, Node.js, Express.js, and MongoDB. Experienced in developing reusable UI components, integrating REST APIs, working with React Query, and implementing responsive interfaces from Figma designs. Familiar with backend development, API testing with Postman, MongoDB/Mongoose, and Git-based development workflows. Focused on clean code, performance, user experience, and building scalable full-stack web applications.

Professional Experience

- 02/2025 – 06/2026

Chemanca

Frontend Developer

 - **Website:** chemanca.it | hub.chemanca.it
 - Developed reusable, maintainable, and responsive UI components using **Next.js, TypeScript, and Tailwind CSS** based on Figma designs.
 - Integrated **REST APIs** documented with **Swagger**, using **React Query (TanStack Query)** for server-state management and efficient data fetching.
 - Used **Zustand** for client-side state management across frontend features.
 - Implemented responsive layouts and reusable component structures to maintain consistency across different screen sizes.
 - Collaborated within a development team using **Git** for version control and shared development workflows.
- 01/2024 – 12/2024

Italeader

Frontend Developer (UI/CSS)

 - Contributed to the frontend development of a web application built with **Angular and TypeScript**, focusing primarily on UI implementation and styling.
 - Developed and refined responsive interfaces using **Bootstrap, HTML, and CSS**.
 - Implemented responsive layouts within the existing Angular application structure.
 - Maintained visual consistency across pages through reusable Bootstrap components and custom CSS.
 - Collaborated with the development team using **Git** for version control and shared development workflows.

Projects

- Sapori — Full-Stack Food Delivery Application

Next.js | TypeScript | Tailwind CSS | React Query | Node.js | Express.js | MongoDB | Mongoose | JWT | Stripe

 - Built and deployed a full-stack food delivery application with a **Next.js frontend** connected to a production **Node.js/Express REST API** and MongoDB database.
 - Implemented **JWT authentication and authorization**, user profiles, password recovery, product management, shopping cart, orders, and customer reviews.
 - Integrated **Stripe Checkout and webhooks** for payment processing and automatic order status updates.
 - Implemented image uploads and processing with **Multer and Sharp**, transactional emails, and protected backend business rules.

- Managed server state and API communication using **TanStack React Query**, including queries, mutations, cache invalidation, loading states, and error handling.

Natours — Tour Booking Application

Node.js | Express.js | MongoDB | Mongoose | JWT | Pug | Stripe | Mapbox

- Developed and deployed a full-stack tour booking application as part of an advanced Node.js learning project.
- Built **RESTful APIs** and implemented authentication and role-based authorization using JWT and cookies.
- Implemented tour management, reviews and ratings, image uploads, email services, and Stripe payment integration.
- Worked with **MongoDB aggregation pipelines and geospatial queries** and applied backend security practices including rate limiting and HTTP security headers.
- Deployed the application using **Render and MongoDB Atlas**.

Skills

Backend & APIs :
Node.js • Express.js • RESTful APIs • MongoDB • Mongoose • JWT Authentication

Frontend:
React • Next.js • TypeScript • JavaScript (ES6+) • HTML • CSS • Tailwind CSS • Bootstrap

State & Data:
TanStack React Query • Zustand

Tools & Services:
Git • Postman • Swagger • Figma
• Supabase • Stripe

Education

2018 – 2021

Bachelor’s Degree in Software Engineering
Islamic Azad University, Tehran, Iran

Certificates

The Ultimate React Course 2025: React, Next.js, Redux & More 
Udemy • Instructor: Jonas Schmedtmann

Node.js, Express, MongoDB & More: The Complete Bootcamp 
Udemy • Jonas Schmedtmann • August 2026
